

ANATOMICALLY CONTOURED

With Low-Profile
Fixation

DISTAL MEDIAL HUMERAL PLATES

Available with 12, 14, and 16
hole plate configurations.

Allows use of 2.7mm
screws, 3.5mm screw
with 2.7mm head, and
4.0mm *Forte*® screws
both fully threaded and
partially threaded.

Transition to
thick to thin

Precontoured to closely
match the anatomy

Reconstruction style plate for
ease of contouring if needed.

Capable of putting a screw
up the medial column of
the distal humerus

DISTAL MEDIAL HUMERAL PLATES

Product Information

Distal Medial Humeral Plates: Stainless Steel

For use with:

- Periarticular 3.5mm Self-Tapping Cortical screws with 2.7mm head
- 2.7mm Mini Fragment Cortical Screws
- *Forte* Distal Radial Plate System 4.0mm partially or fully threaded Cancellous Screws

REDUCED PROFILE SCREWS

The head size of the Periarticular screws has been reduced significantly to create a nearly flush profile when used with a plate or independently.
